

1994, applicable to all workers at the subject firm located in Marion, Ohio. The notice was published in the Federal Register on January 3, 1995 (60 FR 149).

New information received from the company shows that worker separations have occurred at the Lafayette, Georgia location of ABEPP Acquisition Corporation, d/b/a Abbott & Company. The workers produce wiring harnesses. The Department is amending the certification to cover these workers.

The intent of the Department's certification is to include all workers of the subject firm who were adversely affected by increased imports.

The amended notice applicable to NAFTA-00278 is hereby issued as follows:

All workers of ABEPP Acquisition Corporation, d/b/a Abbott & Company located in Marion (NAFTA-00278), Ohio, and in Lafayette, Georgia (NAFTA-00278C) who became totally or partially separated from employment on or after December 8, 1993 are eligible to apply for NAFTA-TAA under Section 250 of the Trade Act of 1974.

Signed at Washington, D.C. this 20th day of October 1995.

Russell T. Kile,

Acting Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.

BILLING CODE 4510-30-M

[NAFTA-00601]

ABEPP Acquisition Corporation d/b/a/ Abbott & Company LaFayette, Georgia; Notice of Termination of Investigation

Pursuant to Title V of the North American Free Trade Agreement Implementation Act (P.L. 103-182) concerning transitional adjustment assistance, hereinafter called (NAFTA-TAA), and in accordance with Section 250(a), Subchapter D, Chapter 2, Title II, of the Trade Act of 1974, as amended (19 USC 2273), an investigation was initiated on September 15, 1995 in response to a petition filed on behalf of workers at ABEPP Acquisition, d/b/a/ Abbott & Company located in Lafayette, Georgia. Workers produce wiring harnesses.

The petitioning group of workers are covered under an existing NAFTA certification (NAFTA-00278). Consequently, further investigation in this case would serve no purpose, and the investigation has been terminated.

Signed at Washington, D.C., this 20th day of October 1995.

Russell T. Kile,

Acting Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.

[NAFTA-00470]

Seagull Energy Corp./Midcon, Inc. All Locations in the State of Texas; Determinations Regarding Eligibility To Apply for NAFTA Transitional Adjustment Assistance; Correction

This notice corrects the amended certification on petition NAFTA-00470 which was published in the Federal Register on October 5, 1995 (60 FR 52215) in FR Document 95-24774. The Department inadvertently set the impact date as May 18, 1994. The impact date should be May 15, 1994.

The affirmative determination for petition NAFTA-00470 should read: "Seagull Energy Corporation, Midcon, Inc., operating in various locations in the State of Texas. The certification covers all workers separated on or after May 15, 1994."

Signed in Washington, D.C., this 20th day of October 1995.

Russell T. Kile,

Acting Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.

BILLING CODE 7555-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-245]

Northeast Utilities, Millstone Nuclear Power Station, Unit 1; Receipt of Petition for Director's Decision Under 10 CFR 2.206

Notice is hereby given that on August 21, 1995, George Galatis and We the People (Petitioners) submitted a Petition pursuant to 10 CFR 2.206 requesting certain actions associated with spent fuel pool issues at the Millstone Nuclear Power Station, Unit 1. The Petitioners submitted a Supplement to the Petition on August 28, 1995.

The Petitioners allege that Northeast Utilities (NU or the licensee) has knowingly, willingly, and flagrantly operated Millstone Unit 1 in violation of its operating license for approximately 20 years; that it obtained previous licensing amendments through the use of material false statements; and that it presently proposes to continue operating under unsafe conditions rather than comply with the mandates of its license. Specifically, the Petitioners allege that NU has offloaded more fuel assemblies into the spent fuel pool than permitted under License Amendment No. 39 to the Millstone Unit 1 Provisional Operating License and License Amendment No. 40 to the Millstone Unit 1 Full-Term Operating License. The Petitioners further allege that License Amendments Nos. 39 and 40 were based upon material false statements made by NU in documents submitted to the NRC. The Petitioners refer to certain NU submittals allegedly containing the false information, such as NU Safety Assessment Reports (SARs) associated with License Amendments Nos. 39 and 40 and with Systematic Evaluation Program (SEP) Topics IX-1 (fuel storage), IX-5 (ventilation systems), and III-7.B (Design Codes, Design Criteria, Load Combinations and Reactor Cavity Design Criteria).

The Petitioners request a number of actions. The Petitioners seek institution of a proceeding to suspend the operating license for the Millstone Unit 1 facility for a period of 60 days after the unit is brought into compliance with the license and the design basis of the plant. In addition, the Petitioners request that the operating license be revoked until the facility is in full compliance with the terms and conditions of its license. The Petitioners further request that before reinstatement of the license, a detailed independent analysis of the offsite dose consequences of the total loss of spent fuel pool water be conducted. The Petitioners also request that enforcement action be taken against NU pursuant to 10 CFR 50.5 and 50.9.

Finally, the Petitioners request that a proposed license amendment pending before the Commission wherein NU seeks to increase the amount of spent fuel it may offload be denied. In addition, the Petitioners request that the NRC retain an independent expert, at NU's expense, to prepare an SAR on the proposed amendment. The Petitioners also request that before the issuance of any amendment, an analysis of both the probability and the consequences of appropriate events be conducted.

In the Supplement, Mr. Galatis alleges that NU also committed violations by offloading more than one-third of a core

of fuel at Millstone Units 2 and 3 and Seabrook Unit 1. In addition, Mr. Galatis alleges with regard to Millstone Unit 3 that NU submitted a material false statement to the NRC associated with a license amendment and that an unanalyzed condition exists with regard to system piping for full-core offload events. With regard to Seabrook Unit 1, Mr. Galatis alleges technical specifications violations associated with criticality analysis.

The Petitioners' requests with regard to any pending license amendment are not within the scope of 10 CFR 2.206. The remaining issues in the Petition are being treated pursuant to 10 CFR 2.206 of the Commission's regulations and have been referred to the Director of the Office of Nuclear Reactor Regulation. As provided by 10 CFR 2.206, appropriate action with regard to these issues will be taken within a reasonable time.

A copy of the Petition is available for inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Learning Resource Center, Three Rivers Community-Technical College, Thames Valley Campus, 574 New London Turnpike, Norwich, CT 06360.

Dated at Rockville, Maryland, this 26th day of October 1995.

For the Nuclear Regulatory Commission.
Frank P. Gillespie,
Acting Deputy Director, Office of Nuclear Reactor Regulation.
